

3rd Program Advisory Committee Meeting, Semester 362

Mechanical Engineering (ME) Department conducted the 3rd Program Advisory Committee (PAC) meeting on Monday, 25-04-2016 in Room # 133 of the Academic Building (B) which was attended by all the faculty of Mechanical Engineering department and PAC members from the industries.

The main scope of this meeting was to discuss the revised ME Degree Plan based on previous recommendations of PAC members, External Program Reviewer, ABET Program Reviewer, and feedback from other stakeholders. The possibility of establishing active collaboration between the ME Department and the industry in terms of research and short courses for industrial employees was also discussed. ME department requested the PAC members to provide industrial related problems that could be given to senior ME students as Senior Design Projects.
